I grew up on Arn Terrace, and my uncle lived on Elizabeth Ct until I sold his home a few years back. It is one of the most desirable blocks in town.

For our meeting Friday, September 11th at 10 AM. We will review the sales, discuss pricing and go through your questions together.

1. WHAT HAS SOLD NEAR YOU

Six sales I selected, closed between Feb 14, 2025 and Jan 29, 2026, from \$720,000 to \$825,000.

41 Elizabeth Ct is a one-story single-family home built in 1964 on a 55 x 100 lot, per the Hudson County tax record; we will check the lot against your survey.

ADDRESS	SOLD	PRICE	SOLD VS. LIST	DAYS	BD / BA	LOT	STYLE
1. 17 Arn Terrace	Sep 16, 2025	\$720,000	100.1%	2	3 / 2	57 x 95	Ranch
2. 1137 Stonewall Lane	Oct 20, 2025	\$735,000	101.4%	12	3 / 1	50 x 118 (approx.)	Raised Ranch
3. 1026 Gillis Pl	Aug 18, 2025	\$750,000	100.1%	14	3 / 2	50 x 100	Ranch
4. 3 Allen Terrace	Feb 14, 2025	\$770,000	102.7%	34	3 / 2	54 x 100	Ranch
5. 34 Elizabeth Ct	Dec 23, 2025	\$775,000	100.0%	7	2 / 2	52 x 98	Ranch
YOUR STREET							
6. 4 Gail Pl	Jan 29, 2026	\$825,000	100.0%	40	3 / 3	97 x 65*	Colonial

* 4 Gail Pl: lot from the Hudson County tax record (Block 174, Lot 13); the MLS listing carries no lot size.

Four of the six went under contract within two weeks. All six sold at or above their final list price.

How I read them

- **17 Arn Terrace:** same style and lot size; the listing described a home that needed some interior updating
- **1137 Stonewall Lane:** a raised ranch on a deeper lot with one bath
- **1026 Gillis Pl:** same style and lot size; the listing described turn-key condition
- **3 Allen Terrace:** the oldest sale in the set; the listing described a renovated home with a finished basement; I was the listing agent
- **34 Elizabeth Ct:** your street, and the closest comparison by location
- **4 Gail Pl:** a colonial with an extra full bath on a larger lot; the least comparable of the six

Hudson County MLS sold records as of September 6, 2026, from the search I ran on September 4. Days is each listing's own days on market before it went under contract. Living area is not published in the MLS for these six sales. These are the sales as they closed, without adjustments; not an appraisal or a recommended asking price.

2. YOUR ESTIMATED PROCEEDS

Sale-price scenarios, not a recommended asking price. You can change the sale price and costs in the worksheet or calculator.

ITEM	\$750,000	\$775,000	\$800,000
New Jersey transfer fee	\$6,775	\$7,040	\$7,305
My compensation (4%)	\$30,000	\$31,000	\$32,000
Attorney fee	\$1,500	\$1,500	\$1,500
Smoke and CO certificate	\$200	\$200	\$200
Estimated proceeds before mortgage payoff	\$711,525	\$735,260	\$758,995

The figures are before mortgage payoff. Enter your payoff in the worksheet or calculator once known; enter 0 only if confirmed. Prorated taxes and utilities, repair credits, seller concessions, other liens and unlisted charges are excluded unless entered in Other costs. Compensation is shown as one line; how it is structured, including anything offered to a buyer's agent, is something we go through together. NJ transfer-fee schedules apply, including the July 2025 graduated fee; reduced fees require confirmed eligibility. Your attorney and lender confirm the final closing figures.

3. PRICING

I usually recommend a range rather than one number, and we set it together. A listing gets the most attention in its first two weeks on the market, so the opening price matters more than any later adjustment. Starting high to leave room to negotiate usually means fewer showings and a price cut later.

Five of the six sales are ranch-style homes; they closed between \$720,000 and \$775,000. 4 Gail Pl sold above that range at \$825,000; it is a colonial. We will set the range together on Friday.

4. MARKETING 41 ELIZABETH CT

We will confirm the marketing plan together. The proposed plan includes:

- Professional photography, exterior and interior, before the listing goes live.
- Drone video of the house and the block.
- A 3D walkthrough, so buyers can tour the home from their phone before they ask to see it in person.
- Your listing on the MLS, which feeds Zillow, Realtor.com and the other major sites.
- Posts on our social accounts at launch, when it goes under contract, and when it sells.

An example of our property marketing:

82 Spring Lane is the example I mentioned in my August 26, 2026 marketing notes. This is a Zillow listing and photo page. Photo access may require sign-in or verification; the 3D tour is not included.

5. SHOWINGS AND UPDATES

Pranvera Mamudi is your seller's assistant from the day we list, weekdays 9 AM to 6 PM, and on weekends while a contract is being negotiated. Call 201-381-1195 or email pran@thegonnelligroup.com.

Showings run through ShowingTime, a 24-hour scheduling service. Each request, confirmation and piece of buyer feedback comes to you as it happens.

6. BEFORE WE LIST

- Helpful to have on hand: the deed or title policy, the most recent survey, your latest mortgage statement, this year's tax bill, and permits or certificates for any work done on the house.
- Secaucus asks for two inspections before closing: a smoke alarm, carbon monoxide alarm and fire extinguisher certificate from the Bureau of Fire Prevention (the fee is in the estimate above), and a sale certification from the Construction Department, which asks that any open permits be closed first. The town recommends scheduling both about two weeks before closing.
- Once a contract is signed, New Jersey gives both sides an attorney review period, usually three business days, before it is binding.
- FEMA's flood map places 41 Elizabeth Ct in Zone X, an area of minimal flood hazard, outside the special flood hazard area. New Jersey's flood disclosure law, in effect since March 2024, still has every seller answer the flood questions on the property condition disclosure statement, including any past water in the house, so we will go through those together.
