Four of the six went under contract within two weeks.
All six sold at or above their final list price.

Five of the six sales are ranch-style homes; they closed between \$720,000 and \$775,000.
The colonial, 4 Gail Pl, sold above that range at \$825,000.

Hudson County MLS, sold records as of September 6, 2026. Sales as they closed, without adjustments. Condition, measured finished living area and a common area basis have not been reconciled; tax building area is not measured finished living area. Lot dimensions and any price or time adjustments still need confirmation.

Standard RTF scenario shown. Leave the reduction off unless eligibility is confirmed. Use the visible partial-exemption checkbox in the calculator, or the worksheet's Reduced RTF eligibility cell, only after confirming eligibility. Senior, blind or disabled owner-occupants may qualify under the [NJ RTF-1 conditions](#). Veteran status alone does not provide this RTF reduction; annual property-tax benefits are separate. Full exemptions are separate and require attorney review. Your attorney and lender confirm the final figures.
